

Enrichment Opportunities Jan 2021

Enrichment classes are typically after school opportunities at Compass, but this year most are virtual. We hope you find this information helpful in case you're looking for more opportunities for your children.

Spanish with Sarah

This February Spanish class is FREE for K-6th grade. Fun, interactive, live online spanish classes with weekly themes. Visit sarahsspanish.com/freefeb to register!

Coding with Kids

Online Coding Classes are being offered for ages 5-18 in 6-week terms. Check out their flyer [here](#). There are more details on their website [here](#).

Soccer Shots

They're getting creative and offering soccer through live video starting in January. Check it out [here](#)! You can watch their video message to you [here](#) as well.

Snapology

Snapology's Virtual S.T.E.A.M. Series for Compass Students: This program is designed to promote socialization and presentation skills, while improving deductive reasoning, logic, and basic math skills. Every week will be a different topic, including archaeology, physics, architecture, art history, biology, ecosystems, and more! We will also have fun themes for holidays, such as Valentine's Day. This class caps off at 20 students. Register for the whole semester or only the weeks that work for you! SUPPLIES NEEDED: LEGO bricks or similar building tools (about a 1-gallon bag of them, and they can be any shape, size, or color), a pencil, and paper. Registration information [here](#).

Talk to the Camera

Acting classes are being offered for ages 6 and up. Check them out [here](#)!

KidsmART

This program offers full day childcare at a few local locations in case anyone needs it. KidsmART is the after care program we use at the Golden campus as well. [Here](#) is more information, and their website is www.kids-smart.com.
